

Strandis

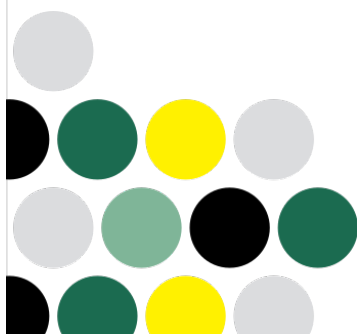

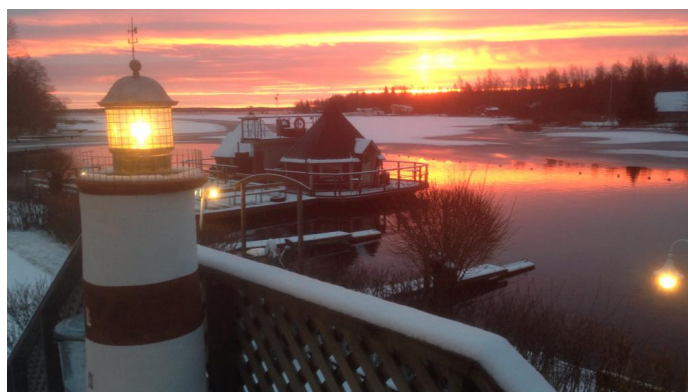

Strandis is a village shop including restaurant and café situated in the Ostrobothnian archipelago in Finland. We are wellknown for our service-mindedness and unique maritime environment. Our services include a restaurant & cafe, shop & fish smokery, camping & cabins. Strandis is also a great place to organise parties or more official meetings. We also warmly welcome children, pets and guests with bare feet! Welcome to Strandis – enjoy your stay here, be it short or long. We are situated on the sea shore in the beautiful Ostrobothnian archipelago. This gives us and our services a maritime air – at the moment we are working on giving the regional maritime history life through stories and details in our interior decorating, menus, additional services and products. The way the local population has been connected to the sea gives us inspiration, in telling their story we want to show them respect. Every day the view over the lake Larsmo is different – come and enjoy it together with us!
